Email: seaholme.ps@education.vic.gov.au

PURPOSE

To ensure that all students and members of our school community understand:

- (a) our commitment to providing students with the opportunity to benefit from digital technologies to support and enhance learning and development at school including our 1-to-1 personal device program
- (b) expected student behaviour when using digital technologies including the internet, social media, and digital devices (including computers, laptops, tablets)
- (c) the school's commitment to promoting safe, responsible and discerning use of digital technologies, and educating students on appropriate responses to any dangers or threats to wellbeing that they may encounter when using the internet and digital technologies
- (d) our school's policies and procedures for responding to inappropriate student behaviour on digital technologies and the internet
- (e) the various Department policies on digital learning, including social media, that our school follows and implements when using digital technology
- (f) our school prioritises the safety of students whilst they are using digital technologies

SCOPE

This policy applies to all students and staff at Seaholme Primary School.

Staff use of technology is also governed by the following Department policies:

- [Acceptable Use Policy for ICT Resources](#)
- [Cybersafety and Responsible Use of Digital Technologies](#)
- [Digital Learning in Schools](#) and
- [Social Media Use to Support Student Learning](#).

Staff and students follow our school's Acceptable Use Policy.

Staff, volunteers and school councillors also need to adhere to codes of conduct relevant to their respective roles. These codes include:

- Seaholme Primary School's Child Safety Code of Conduct
- [The Victorian Teaching Profession Code of Conduct](#) (teaching staff)
- [Code of Conduct for Victorian Sector Employees](#) (staff)
- [Code of Conduct for Directors of Victorian Public Entities](#) (school councillors)

DEFINITIONS

For the purpose of this policy, *digital technologies* are defined as digital devices, tools, applications and systems that students and teachers use for learning and teaching; this includes Department-provided software and locally sourced devices, tools and systems.

Digital technologies include, but is not limited to:

- Computer systems and applications such as email, and the internet
- School networks
- Electronic storage devices
- Mobile devices such as mobile phones, tablet devices and PDAs

- Web-based tools such as social networking sites, chat rooms, blogs, podcasts, instant messaging systems, and file sharing
- Imaging tools such as video, still or web cameras and related software
- Audio tools such as audio recording devices, mp4 players and related software
- Fax and copying machines

POLICY IMPLEMENTATION

Vision for digital learning at our school

Supervision and duty of care online

Principals and teachers have a duty of care to take reasonable steps to protect students from any harm that should have reasonably been foreseen, including those that may be encountered within the online learning environment.

The use of digital technologies is a mandated component of the Victorian Curriculum F-10. Safe and appropriate use of digital technologies, including the internet, apps, computers and tablets, can provide students with rich opportunities to support learning and development in a range of ways.

Through increased access to digital technologies, students can benefit from learning that is interactive, collaborative, personalised, engaging and transformative. Digital technologies enable our students to interact with and create high quality content, resources and tools. It also enables personalised learning tailored to students' particular needs and interests and transforms assessment, reporting and feedback, driving new forms of collaboration and communication.

Seaholme Primary School believes that the use of digital technologies at school allows the development of valuable skills and knowledge and prepares students to thrive in our globalised and inter-connected world. Our school's vision is to empower students to use digital technologies safely and appropriately to reach their personal best and fully equip them to contribute positively to society as happy, healthy young adults.

Student use of the Seaholme Primary School's devices and/or network to access the internet or any other digital technologies application is governed by Seaholme Primary School's Acceptable Use Agreement for staff and students. Students will be made aware of behaviour which is not acceptable when using digital technologies as stated in the *Bullying Prevention Policy*.

Cyberbullying and using digital technologies for inappropriate purposes such as viewing/posting/sharing inappropriate or unlawful content; using digital technologies to harass, threaten or intimidate etc, will not be tolerated at Seaholme Primary School and consequences will apply to students in accordance with Seaholme Primary School's *Bullying Prevention Policy* and the school's *Child Safe Code of Conduct*.

Personal Devices at Seaholme Primary School

Seaholme Primary School delivers the curriculum with the use of iPads/tablets/notebook computers supplied by the school. Seaholme Primary School operates a 1:1 iPad program in years 3-4 where parents/carers are invited to purchase a place in the iPad Program which gives the student access to a personal device.

Students are expected to bring the device to school each day to be used during class time for different learning activities. When bringing their device to school, students should ensure that it:

- Is fully charged each morning
- Is brought to school in the supplied protective case
- Apple Pencil is within the case

Staff and student personal digital technologies devices such as mobile phones should be stored in a safe and secure place as the school will not be held liable for loss, damage or theft. (See *Mobile Phone Policy* for more information).

Please note that our school has insurance to cover accidental damage devices that are a part of our One-to-One Digital Learning Program. However, parents/carers are required to make an excess contribution:

- First breakage \$50 excess contribution
- Second breakage \$125 excess contribution
- Third and further breakages \$300 excess contribution

Please note if the device is lost, parents/carers are required to make an excess contribution of \$500.

Students, parents and carers who would like more information or assistance regarding our digital learning program are encouraged to contact the principal.

Safe and appropriate use of digital technologies

Digital technologies, if not used appropriately, may present risks to users' safety or wellbeing. At Seaholme Primary School, we are committed to educating all students to use digital technologies in ways that respect the dignity of ourselves and others and promote full flourishing for all, equipping students with the skills and knowledge to navigate the digital world.

At Seaholme Primary School we:

- Use online sites and digital tools that support students' learning, and focus our use of digital technologies on being learning-centred
- Use digital technologies in the classroom for specific purpose with targeted educational or developmental aims
- Supervise and support students using digital technologies for their schoolwork
- Effectively and responsively address any issues or incidents that have the potential to impact on the wellbeing of our students
- Have programs in place to educate our students to be safe, responsible and discerning users of digital technologies, including [insert details of specific programs]
- Educate our students about digital issues such as privacy, intellectual property and copyright, and the importance of maintaining their own privacy and security online
- Actively educate and remind students of our *Student Engagement and Wellbeing* policy that outlines our school's values and expected student behaviour, including online behaviours
- Have an *Acceptable Use Agreement* outlining the expectations of students when using digital technologies for their schoolwork
- Use clear protocols and procedures to protect students working in online spaces, which includes reviewing the safety and appropriateness of online tools and communities and removing offensive content at the earliest opportunity
- Educate our students on appropriate responses to any dangers or threats to wellbeing that they may encounter when using the internet and other digital technologies
- Provide a filtered internet service at school to block access to inappropriate content
- Provide JAMF Parent to families who participate in the One-to-One Digital Learning Program. This allows families manage the content on the device.
- Refer suspected illegal online acts to the relevant law enforcement authority for investigation
- Support parents and carers to understand the safe and responsible use of digital technologies and the strategies that can be implemented at home through regular updates in our newsletter, information sheets, website/school portal and information sessions.

Distribution of school owned devices to students and personal student use of digital technologies at school will only be permitted where students and their parents/carers have completed a signed Acceptable Use Agreement.

All messages created, sent or retrieved on the school's network are the property of the school. The school reserves the right to access and monitor all messages and files on the computer system, as necessary and appropriate. Communications including text and images may be required to be disclosed to law enforcement and other third parties without the consent of the sender.

Photographs, video or digital images of a student are considered *personal information* and therefore their use and disclosure are governed by the Privacy and Data Protection Act 2014 (Vic) (PDP Act) and the Information Privacy Principles contained within it. Cameras, still and video (including mobile phone cameras) must not be used in private spaces for example changing rooms, toilets, gyms and swimming areas. Action will be taken against any student or staff member who photographs or films other individuals without their knowledge or permission. (See *Photographing and Filming Policy* for more Information).

Information on supervision arrangements for students engaging in digital learning activities is available in our *Yard Duty and Supervision Policy*.

External access

Under the Child Safe Standards (the Standard 9) Seaholme School provides physical and online environments that promote safety and wellbeing while minimising opportunities for our students to be harmed. To prioritise the safety of students, our school considers and implements safety measures to manage external access in online environments. External access in online environments includes:

- receiving or sending emails outside of a school or department online environment
- document sharing outside of a school or department online environment
- using the chat function outside of a school or department online environment.

To help create a safe online environment, our school limits external access to approved department managed online environments or our school managed online environment. Seaholme School follows the required DET actions to manage external access requirements for our students.

Recommendations

Foundation to Year 2 Digital Technologies

- Students will be able to access internet sites that have been previously viewed by the classroom teacher or quality assured and available through the DET's website or other sources approved by the school.
- Students will always be adequately supervised when using digital technologies. The students will be advised by the teacher to always close websites and inform the teacher if they encounter any material that makes them uncomfortable at any time.
- Students will be made aware by their teachers that they should never disclose any personal information online, including their phone number, their last name, home address, photograph of themselves or any information regarding their personal whereabouts at any time.
- Students will be taught explicitly about cyber-bullying, their online behaviour and safety by their teachers.
- Parents will sign an Agreement of Digital Technologies Acceptable Use agreeing to the above (annually).

Year 3 - 6 Digital Technologies

- When using digital technologies, students will be mindful of internet security and personal online safety by not disclosing personal information including any personal passwords, full names, telephone numbers, images and information about their intended movements or whereabouts.

- Students will be respectful on how they communicate and work with others online. Online bullying will be dealt with, not tolerated.
- Students will use digital technologies at school for learning, use the equipment properly and carefully and not interfere with the work or data of another student unless working on an agreed collaborative project.
- Only authorised programs will be used at school.
- Students will remember that the content on the web is either in the public domain or someone's property and to consult with teachers to get permission to copy information.
- Students will be taught appropriate rules around copyright laws.
- Students and parents will sign a Digital Technologies Acceptable Use Policy (annually)

Social media use

Our school follows the Department's policy on [Social Media Use to Support Learning](#) to ensure social media is used safely and appropriately in student learning and to ensure appropriate parent notification occurs or, where required, consent is sought. Where the student activity is visible to the public, it requires consent.

Our school subscribes to several educational apps such as Reading Eggs, Seesaw and Quizzlet for students to practice literacy and numeracy skills and, where parents and peers can provide appropriate feedback and comments on the work undertaken in or relating to classwork. Parents are welcome to contact the principal if they have any questions or concerns about students participating in these forums. From time to time the school may introduce new apps or online learning forums, and these will be communicated to parents prior to their introduction through school council, the newsletter or COMPASS.

In accordance with the Department's policy on social media, staff will not 'friend' or 'follow' a student on a personal social media account or accept a 'friend' request from a student using a personal social media account unless it is objectively appropriate, for example where the student is also a family member of the staff.

If a staff member of our school becomes aware that a student at the school is 'following' them on a personal social media account, Department policy requires the staff member to ask the student to 'unfollow' them, and to notify the school and/or parent or carer if the student does not do so.

Staff use of Seaholme Primary School's devices and/or network to access the internet or any other digital technologies application, is governed by the Department's [Acceptable Use Policy \(AUP\)](#) as amended from time to time. Breaches of this policy may result in disciplinary action.

Student behavioural expectations

While the internet may be largely a self-regulated environment, principles of defamation law, privacy law and community standards still apply to communication and publishing via the internet or other electronic means. In addition to school consequences, there are legal sanctions for improper use of the internet and digital technologies.

When using digital technologies, students are expected to behave in a way that is consistent with Seaholme Primary School's *Statement of Values and School Philosophy*, *Student Wellbeing and Engagement Policy* and *Bullying Prevention Policy*.

When a student acts in breach of the behaviour standards of our school community (including cyberbullying, using digital technologies to harass, threaten or intimidate, or viewing/posting/sharing of inappropriate or unlawful content), Seaholme Primary School will institute a staged response, consistent with our student engagement and behaviour policies.

It is the responsibility of all students to protect their own password and not divulge it to another person. If a student or staff member knows or suspects an account has been used by another person, the account holder must notify the classroom teacher and/or the administration, immediately.

Breaches of this policy by students can result in a number of consequences which will depend on the severity of the breach and the context of the situation. This includes:

- removal of network access privileges
- removal of email privileges
- removal of internet access privileges
- removal of printing privileges
- other consequences as outlined in the school's *Student Wellbeing and Engagement and Bullying Prevention* policies.

Staff behavioural expectations

Unless prior written permission is provided, when using social media staff must not:

- Disclose or use information that is confidential to the organisation
- Engage in excessive non work-related use of social media during work hours
- Post anything in which this organisation or any other person has intellectual property rights
- Convey information that would allow a reasonable person to ascertain the work being performed for this organisation or the identity of a stakeholder and their relationship with the organisation.
- When using IT systems, use any other person's ID or login details or otherwise impersonate any other person
- Disparage, criticise or show disrespect for any stakeholder
- Discriminate, harass, bully or victimise any stakeholder
- Use digital technologies to engage in behaviour that amounts to bullying, harassment or unlawful discrimination is prohibited and may result in disciplinary action.

If staff become aware of unacceptable use of social media as described above, they must notify the Principal or Assistant Principal. Non-compliance with the Acceptable Use Policy will be regarded as a serious matter and appropriate disciplinary action may be taken.

All messages created, sent or retrieved on the school's network are the property of the school. The school reserves the right to access and monitor all messages and files on the computer system, as necessary and appropriate. Communications including text and images may be required to be disclosed to law enforcement and other third parties without the consent of the sender.

Monitoring of Digital sites and Social Media

When employees engage with digital technologies and social media activities using the organisations' IT systems, the IT department will collect and retain information about that activity, including the content of any communications.

The purpose of collecting this information will be to ensure that the interests of co-workers and the organisation are not adversely affected by the conduct of that employee. The information will be kept secure and will only be disclosed to persons within the organisation as is necessary to ensure compliance with this policy. If you become aware of unacceptable use of digital technologies or social media as described above, you must notify the Principal or Assistant Principal. **(Also See Working from Home Policy)**

Services which operate online or within cloud technologies usually require certain personal details to create an account. Such services also usually provide an opportunity for personal information to be created within

the space by the teacher and/or the student. Parents must give their consent knowing what information has been provided, who is able to see it and where it is stored. The intent of the space must also be understood.

The need for consent applies even when students sign themselves up for an account under teacher direction or supervision. It also applies if the personal information will not be accessible to or viewed by others, as stored data in a system.

Respond to online incidents

The Emergency and Security Management Unit (ESMU) operates a twenty-four hour, seven days per week emergency and security communication and coordination centre. Step-by-step guides provide practical steps and actions to protect, respond to or manage an online incident of concern. See: [Step by step guides](#)

Consequences of breaching this policy

- Non-compliance with the Acceptable Use Policy will be regarded as a serious matter and appropriate disciplinary action may be taken.
- A breach of this policy may result in disciplinary action, which may include the termination of employment.
- Staff may be required to delete any information contained on any social media platform that is a breach of this policy
- Access to social media may be restricted for breaching this policy (or while complaints against individuals are investigated)

Manage personal information

Seaholme Primary School complies with the following directives regarding privacy. Schools are bound by the Privacy and Data Protection Act 2014 (Vic) and the Health Records Act 2001 (Vic) (Victorian privacy laws). Victorian privacy laws require schools to obtain fully informed, freely given, current and specific consent from the parent, guardian or carer of a student to use and disclose their personal information.

This also applies to the registration and use of online learning tools and services. Schools are required to create, manage and dispose of their public records (i.e. student records) in accordance with the Public Records Act 1973 (Vic). Services which operate online or within cloud technologies usually require certain personal details to create an account. Such services also usually provide an opportunity for personal information to be created within the space by the teacher and/or the student. Parents must give their consent knowing what information has been provided, who is able to see it and where it is stored. The intent of the space must also be understood.

The need for consent applies even when students sign themselves up for an account under teacher direction or supervision. It also applies if the personal information will not be accessible to or viewed by others, as stored data in a system.

Schools can undertake a privacy impact assessment (PIA) to identify and consider the privacy impacts of online services they would like to use. Schools must also have parent consent before publishing, reproducing or communicating a student's work, information or image. Schools should understand that while consent can be freely given, it can also be withdrawn at any time. If consent is withdrawn, the school must remove the content/resource or access immediately.

Digital copyright

Material on the internet is protected by copyright. The material that comprises a website will be protected by copyright and various pieces of content may be owned by different people.

In general, copyright in print, musical and artistic works, sound recordings or film contained on the internet will not be infringed, where the copy or communication is done with the permission of the copyright owner. Schools can ask permission, or it could be indicated on a site or provided through Creative Commons licences under the fair dealing, flexible dealing, educational and other statutory exceptions, and copyright exceptions or through paid licence or agreement.

Supervision and duty of care online

Principals and teachers have a duty of care to take reasonable steps to protect students from any harm that should have reasonably been foreseen, including those that may be encountered within the online learning environment.

School based cybersafety education and conversations with adults are two major factors that influence young people's online safety strategies.

The cybersafety and cyberbullying sections within the Bully Stoppers (see resources) online toolkit have been developed to support school communities to understand the behaviours and processes that will help them to act in a safe and responsible manner when using digital technologies.

Note: In the event of staff and students required to work remotely from home, (due to for example COVID 19 pandemic), the *Working from Home Policy* provides further information

COMMUNICATION

This policy will be communicated to our school community in the following ways:

- Included in staff induction processes and staff training
- Available publicly on our school's website communications platform (COMPASS)
- Included in staff handbook/manual
- Discussed at staff briefings/meetings as required
- Included in transition and enrolment packs
- Discussed at parent information nights/sessions
- Discussed at student forums
- Reminders in our school newsletter
- Hard copy available from school administration upon request

FURTHER INFORMATION AND RESOURCES

This policy should be read in conjunction with the following school policies:

- Child Safety and Wellbeing Policy
- Statement of Values and School Philosophy
- Student Wellbeing and Engagement Policy
- Duty of Care Policy
- Inclusion and Diversity Policy
- Yard Duty and Supervision Policy
